#### Item No. 9

The existing Articles of Association (AoA) are based on the Companies Act, 1956 and several regulations in the existing AoA contain references to specific sections of the Companies Act, 1956 and some regulations in the existing Articles of Association (AoA) are no longer in conformity with the Act.

The Companies Act, 2013 is now largely in force. On 12.09.2013, the Ministry of Corporate Affairs (MCA) had notified 98 Sections for implementation. Subsequently, on March, 26, 2014, MCA notified most of the remaining Sections (barring those provisions which require sanction/confirmation of the National Company Law Tribunal ("Tribunal") such as variation of rights of holders of different classes of shares(section 48), reduction of share capital (Section 66), compromises, arrangements and amalgamations (Chapter XV), prevention of oppression and mismanagement (Chapter XVI), revival and rehabilitation of sick companies (Chapter XIX), winding up (Chapter XX) and certain other provisions including interalia, relating to Investor Education and Protection Fund (Section 125) and valuation by registered values (Section 247). However, substantive sections of the Act, which deal with the general working of companies stand notified.

With the coming into force of the Companies Act, 2013 several regulations of the existing AoA of the company require alteration or deletion in several Articles. Given this position, it is considered expedient to wholly replace the existing AoA by a new set of Articles.

The new AoA to be substituted in place of the existing AoA are based on table 'F' of the Act which sets out the model AoA for a company limited by shares. Shareholder's attention invited to certain salient provisions in the new draft AoA of the Company viz.

- (a) Company's lien now extends also to bonuses declared from time to time in respect of shares over which lien exists.
- (b) The nominee(s) of a deceased sole member are recognized as having title to the deceased's interest in the shares.
- (c) New provisions regarding application of funds from reserve accounts when amounts in reserve accounts are to be capitalized.
- (d) New provisions relating to appointment of chief executive officer and chief financial officer, in addition to manager and company secretary;

#### 2. ECONOMIC ENVIRONMENT AND BUSINESS REVIEW

The Indian tourism and hospitality industry has emerged as one of the key drivers of growth among the services sectors in India. Tourism in India is an employment generator and a significant source of foreign exchange for the country, apart from being an economic activity that helps local and host communities. In 2013, the travel and tourism industry contributed Rs 2.17 trillion (US\$ 36 billion) or 2 per cent to the country's gross domestic product (GDP). This is expected to rise to Rs 4.35 trillion (US\$ 72.17 billion) in the coming years.

The tourism industry in India is thriving due to an increase in foreign tourist arrivals (FTA) and a greater number of Indians travelling to domestic destinations than before. The revenue from domestic tourism is likely to grow by 8.2 per cent in 2014 as compared to 5.1 per cent a year ago, according to the World Travel and Tourism Council (WTTC). Hotels are also an extremely important component of tourism industry. India's travel and tourism industry is expected to grow by about 7.3 per cent in 2014, according to WTTC.

The Government of India has contributed significantly to the growth and development of the industry by providing policy and infrastructural support such as simplification of visa procedures and tax holidays for hotels. Further, the tourism policy of the government aims at speedy implementation of tourism projects, development of integrated tourism circuits, special capacity building in the hospitality sector and new marketing strategies.

FTAs during the period January–March 2014 stood at 21.27 lakh as compared to FTAs of 20.27 lakh during the corresponding period of 2013, registering a marginal growth of 4.9%. FTAs during March 2014 were 6.69 lakh as compared to 6.40 lakh during March 2013, a growth of 4.5 %.

During the year under review the Domestic Tourism Industry remained sluggish with marginal increase of Foreign Tourist Arrivals. But, consequent to the addition of more than 10,000 rooms in Delhi/NCR and other Metropolitan cities like Mumbai, Chennai, Bangaluru and Hyderabad the Hotel Industry was particularly impacted and your Hotel is not an exception to it. Weak pricing scenario and increase in operating costs in an inflationary environment has particularly affected the profitability of Hotel Industry and your company is equally impacted in such challenging business environment. With the formation of the New Government our economy should re-gain a trajectory of high growth and outlook for the company in expected to grow.

#### **CORPORATE GOVERNANCE**

Corporate Governance is a concept, rather than an individual instrument. It includes debate on the appropriate management and control structures of a company. It includes the rules relating to the power relations between owners, the Board of Directors, management and the stakeholders such as employees, suppliers, customers as well as the public at large.

Corporations around the world are recognizing that sustained growth of their organization requires cooperation of all stakeholders, which requires adherence to the best corporate governance practices. In this regard, the management needs to act as trustees of the shareholders at large and prevent asymmetry of benefits between various sections of shareholders, especially between the owner-managers and the rest of the shareholders.

#### ECONOMIC SCENARIO AND HOSPITALITY SECTOR

According to Economic Survey for the year 2013-14, economy is on a progressive path overcoming the 5% growth rate in the preceding year and expected to grow at the level of 5.4% - 5.9% in the year 2014-15. It is assured that with strong economic fundamentals and the resilient nature of the Indian economy with the proper mix of strong fiscal and monetary policy will help in achieving the higher growth target in the year 2014-15. All would agree that reforms are needed for long term prospect on important issues like low and stable inflation regime, tax and expenditure reforms and regulatory framework.

The Fiscal Deficit is being contained at 4.5% of GDP in the year 2013-14 compared 4.9% in the year 2012-13. The Primary Deficit would be 1.2% of GDP and revenue deficit 3.2% of GDP in 2013-14. Our economic policy should lay emphasis on putting thrust on public finance and bring out transparency and improved budgetary system. Well designed policy decisions will enhance clarity, consistency and transparency for a globalized India.

As far as Hotel Industry is concerned, Hotels are performing flat or poorer than the previous years. Overall the Indian Hotel Industry was affected by oversupply of rooms across the country. Occupancy is falling as a result of increase of supply which continues to outpace demand. We expect that with the global economic recovery gaining momentum, and on coming well visional economic policy of India, aided by certain pro-active recent initiatives by Government of India on issues such as visa-facilitation there will be a steady improvement in demand scenario. Demand from domestic leisure travelers is expected to remain robust.
